COURAGE AGABI

Computer Science Major

Career Objective

Innovative and technically astute Software Engineer well-versed in analyzing user needs and developing highly functional, robust, and easy-to-use applications. Trained in multiple programming languages and experienced in Agile and Scrum environments. Excels as hands-on developer with expertise in creating everything from stable back-end frameworks to intuitive user interfaces.

Work Experience

Camp Instructor
ID Tech, Campbell CA
May 2022 - Present

▪ Helped students build creative skills in a variety of Adobe systems including Premiere Pro and Photoshop.
▪ Built positive and productive relationships with students and parents to further program objectives and overall success.
▪ Collaborated with other instructors to develop stimulating course material.
▪ Designed customized student programs to meet individual creative needs.

Health IT Technician
Epic Systems, Verona WI
May 2021 - August 2021

▪ Trained clinical staff during the transition from previous EHR systems.
▪ Responded to support requests from end users and patiently walked individuals through basic troubleshooting tasks.
▪ Explained technical information in clear terms to non-technical individuals to promote better understanding.
▪ Assessed system software, suggested modifications to reduce average wait time and wrote additional documentation for special cases.

COVID Testing Technician (ARMY)
Cobb County Health Department, Marietta GA
June 2020 - March 2021

▪ Implemented changes to documentation methods and operating procedures to improve efficiency and alleviate workload on county healthcare workers.
▪ Applied knowledge of statistical analysis to note trends at COVID testing site and draw conclusions.
▪ Investigated and addressed system issues to enhance usability and improve functionality.
▪ Evaluated and adopted new technologies to address changing site needs.

Education

Bachelor of Science, Computer Science, Expected in 05/2023
Georgia Institute of Technology — *Atlanta GA*
▪ *Continuing education in Full Stack Development for Web/Mobile*

Associate of Science, Computer Science, 12/2018
Georgia State University — *Atlanta GA*
▪ *Dean's List Fall 2017*

Skills

Programming languages: Java, Python, C/C#
Object Oriented Programming, Software design, Analytical thinking, Technical writing, Software testing and validation, Git version control, Attention to detail

Interests

Machine learning, Videography & film, Soccer

Achievements

Army Service Ribbon, Army Achievement Medal (for Hurricane response in Louisiana), National Defense Service Medal (for COVID response in Georgia), Georgia State University Associate of Science Highest Honor
